Introduction

With over 50 years of expertise in autism specific education, Ascent provides further education and training for young adults (16 - 25) with autism and neuro developmental needs to help reach their full potential.

Our personalised programmes are created to develop our students and promote:

- ✓ Independence
- ✓ Functional life skills
- ✓ Travel training
- ✓ Occupational learning
- ✓ Employability training/education
- ✓ A sense of well-being, emotional understanding and healthy lifestyles

Curriculum

The curriculum covers Entry 1 to Level 3 accredited qualification routes and provides opportunities for our students to:

- ✓ Follow vocational courses and qualifications
- ✓ Participate in community activities and learn about citizenship
- ✓ Access a programme that helps students to become more independent
- ✓ Visit local Further Education Colleges/Universities with support
- ✓ Experience real work situations
- ✓ Work experience
- ✓ Use and develop essential digital skills for life and work
- ✓ An understanding of knowledge, skills and behaviours related to life and work
- ✓ Take part in a wide range of social, leisure and sporting activities

Collaboration

We champion collaboration with local community groups where students:

- ✓ Gain valuable team building and problem solving skills
- ✓ Work alongside adults in general daily life and community situations
- ✓ Develop their confidence and social interaction abilities whilst contributing to enhancing real local environmental projects

Admissions guidance

We provide services for Autistic young people, and associated neuro developmental needs:

- ✓ Autism
- ✓ Rett Syndrome
- ✓ Fragile X Syndrome
- ✓ Prada-Willi Syndrome
- ✓ Williams Syndrome
- ✓ Developmental language disorder (DLD)
- ✓ Cerebral Palsy (CP)
- ✓ Global Developmental Delay (GDD)
- ✓ Selective mutism
- ✓ Anxiety Disorders
- ✓ Behavioural and Emotional Disorders
- ✓ Depression
- ✓ Dissociation and Dissociative Disorders
- ✓ ARFID/Eating Disorders
- ✓ Obsessive Compulsive Disorder (OCD)
- ✓ Attention-deficit/hyperactivity disorder (ADHD)
- ✓ Attention Deficit Disorder (ADD)
- ✓ Trauma and Stressor Related Disorders
- ✓ Learning Disabilities
- ✓ Epilepsy

This is not an exhaustive list please contact admissions for any queries regarding diagnosis and potential placement.

How Ascent Specialist Teaching and Learning Strategies/Environment support EHCP Outcomes:

1. We provide a clear structure and routine.
2. We identify triggers – what causes a young person to feel anxious, worried, scared, or low in mood.
3. We are consistent, we share what works with other family members, college staff or those involved in the young person's education and care.
4. We consider the learning environment and need for individual and group spaces.
5. We prepare young people to manage changes and transitions.
6. As an organisation we communicate clearly with all stakeholders.
7. We have bespoke pathways and integrate a young person's interests.
8. We have a bespoke Resilience Curriculum to reduce vulnerabilities.
9. We provide environmental support, the systematic use of explicit visual and/or social cues to clarify meaning.
